experience.science.future.

Platform for Start-ups, Universities and NGOs

Following the overwhelmingly successful launch of experience.science.future. at IFAT 2018 in Munich, the future platform is now coming to India!

It provides innovative start-ups, universities and NGOs a cost-effective and unique opportunity to present themselves to a wide audience. Incorporated in the Active Learning Center, IFAT India's hub for interactive formats, participants can expect an attractive stand concept, excellent networking opportunities and plenty of interested visitors and young professionals alike!

*Actual stand design may differ from the design shown.
