Conference Background

- In 2017 IFAT India's new partner TERI (The Energy and Resources Institute), an independent, leading think tank will host the first **Environmental Technologies Conference powered by IFAT India**
- TERI's key focus lies in fostering a sustainable development by conducting praxis-oriented research and transferring knowledge into policy, while IFAT India is showcasing the latest environmental technologies and innovative products
- In a **one and a half day conference** and with an intense involvement of important Indian stakeholders as senior government officials, corporates, members of civil society and academia, this platform will witness deliberations on the need for cleaner and resource efficient environmental technologies
- In the context of a sustainable development, the focus themes of the conference will be **Air Pollution, Solid Waste Management and Urban Water Management**

Organization's Background

TERI

The Energy and Resources Institute (TERI) is a leading think tank dedicated to conducting research for sustainable development of India and the Global South. TERI was established in 1974 as an information centre on energy issues. However, over the following decades, it made a mark as a research institute, whose policy and technology solutions transformed people's lives and the environment.

Messe München India

Founded in 2007, Messe München India Pvt. Ltd. is one of the leading organizers of trade fairs in India. Messe München India is a wholly subsidiary of Messe München Germany. It organizes various B2B trade fairs across various industrial verticals. Messe München, together with its subsidiary Messe München India, expanded its international network of trade events for the environmental technology sector by launching IFAT India in 2013.
